This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Organized February 26, 1848. Capital $150,000. Increased in 1853 to $300,000.

Officers.—Samuel F. Pratt, President and Treasurer; Oliver G. Steele, Secretary and Superintendent.

Directors—Samuel F. Pratt, Stephen G. Austin, William K. Scott, Oliver G. Steele, Elbridge G. Spaulding, George Coit, William Bucknell, Jr.

The Company was organized in 1848, under the general law authorizing the formation of Gas Light Companies. The works were completed and Gas supplied to the city in November of the same year.

The works are situated on the spacious lot on the North side of Genesee street, between Jackson and Fourth streets, and occupy about two thirds of the block between said streets and the Wilkeson slip.

In the construction of the works, all the modern improvements are embraced, and they are believed to be unsurpassed by any other similar work in the State, in capacity and economy of working.

The large improvements and extensions of 1852 were made with reference to supplying the entire city with Gas, and the future extensions of Pipe to accomplish this object can be made at a comparatively small expense. The quantity now laid is about thirty-six miles, and the Gasometers are of sufficient capacity to supply this city with a daily consumption of 350,000 cubic feet. The price of Gas was originally fixed at $3,50 per thousand feet, but was reduced in 1851 to $3,00 net, when promptly paid, which is the price now charged. It is believed to be as low if not lower than Gas is furnished by any private company in the United States.

TRADE, COMMERCE, &c., OF BUFFALO.

The population of Buffalo is now estimated at about 80,000. The Assessors' valuation of real and personal estate for the years 1853 and 1854, is as follows:

OLD TERRITORY.

Valuation of real estate, 1853,	$16,698,700
Valuation of personal estate, 1853,	2,698,685
Total,	$19,397,355
Valuation of real estate, 1854,	$21,079,218
Valuation of personal estate, 1854,	3,518,221
Total,	$24,597,439
Increase,	$5,200,084

NEW TERRITORY.

Valuation of real estate, 1854,	$4,764,926
Valuation of personal estate, 1854,	477,300
Total valuation for 1854,	$29,839,665

The new territory refers to the township of Black Rock, which was added to our city in 1853, and which increased its area nearly 24,000 acres.

Our commercial facilities have, for two or three years past, increased at an astonishing rate. The widening and deepening of the main channel of Buffalo Creek; the construction of the ship canal between the creek and the lake, and running parallel to both for nearly two miles, with a convenient and safe

entrance in all weathers; the numerous cross-slips, and the Erie and Ohio Basins, have added over one hundred acres to the extent of our facilities. The Erie Basin will be completed this season, and will afford safe anchorage for a very large number of vessels. Steam tugs, recently introduced, greatly facilitate the arrival and departure of vessels, by towing them from one point to another. Below is a list of the Elevators on Buffalo Creek, and their capacity for storing grain and elevating per hour:

	CAPACITY.		PER HOUR.

No. 214 MAIN STREET.

Annexed is a cut of a Silver Medal, awarded the Subscriber by the New York State Agricultural Society, at Buffalo, in 1848, Syracuse in 1849, Rochester in 1851; also, three Diplomas for the best Daguerreotypes. In addition to the above, I have received a Medal from the World's Fair, at London, in 1851, for pictures of the *highest excellence*, thus showing more first-class premiums than any other operator in the United States, in every case competing with the first Daguerreans in the World.

☞ All persons are most respectfully solicited to call, whether wishing Pictures or not, and accept the thanks of the Proprietor,

O. B. EVANS,

The Oldest Practical Daguerrean in America.

F. S. PEASE!

MANUFACTURER AND WHOLESALE DEALER IN

OILS, OILS, OILS,

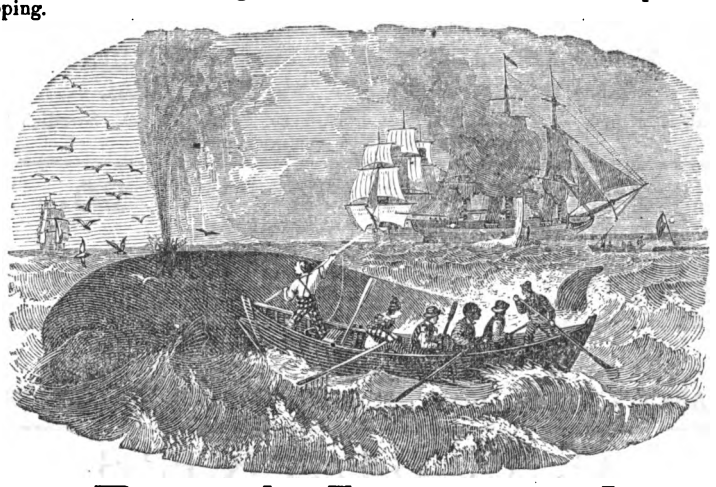
No. 61 MAIN STREET.

The attention of dealers and consumers is called to the following list of

PURE, FRESH AND SUPERIOR OILS,

Which I am Manufacturing, and offering at the Lowest Market Rates:

Sperm Oil, Winter and Spring; Elephant Oil, refined and bleached; Whale Oil, Winter and Spring, refined; Lard Oil, Winter. strained, and Spring; Lard Oil, refined, for Druggists' use; Signal Light Oils, for Railroads and Steamers; Pure Olive and Rape Seed Oils; Tallow, Tanners', Acid, and Red Oils; Doping and Metallic Oils, for Axles and heavy Bearings; Linseed Oil, boiled and raw; Bright Varnish, Pitch, Tar, Lard and Stearine, packed for use or Shipping.



Pease's Improved

ENGINE AND SIGNAL OIL

For Railroads, Steamers and Propellers, and for every class of Machinery and for burning, is superior to Sperm or any other Oil whatever, and the only reliable lubricator that is a superior Burning Oil, that will keep bearings cool, and that will not gum.

PATENT SECURED.

Practical tests prove this Oil to be twenty-five per cent. more durable than Sperm Oil, for every class of machinery and for burning. Its merits are acknowledged in its long continued use on Railroads, Steamers and Propellers, in Machine Shops, Cotton and Woolen Factories, Saw, Grist, and Planing Mills, Printing Offices, &c., and in no case has it failed to meet the approval of the consumer. Engineers and Machinists pronounce it CHEAPER FOR BURNING, and MORE DURABLE FOR LUBRICATING, than Sperm or any other Oil whatever. The "Scientific American and Manufacturer's Journal," after testing this Oil, pronounces it superior to any other for lubricating. For sale only by the inventor, F. S. PEASE, Manufacturer and Wholesale Dealer in Oils, No. 61 Main St.

☞ Reliable orders filled for any part of the United States or Europe.

Master Machinist's Office, Michigan Southern Railroad.

F. S. PEASE, Buffalo.—In regard to the Oil manufactured by you, I am confident that you cannot recommend it too high, as it will stand ANY TEST that it can be put to. Our road has always, heretofore, used the best Sperm Oil. For the last six months I have used your Improved Machinery and Signal Light Oil, on the Locomotives of this Road, and it has given entire satisfaction. I also used it on the B. and R. Division of the N. Y. Central Road, about six months, with equal satisfaction. I can cheerfully recommend your Oil, after a test of SEVERAL THOUSAND GALLONS, as the CHEAPEST and most DURABLE Oil for Railroad use that I am acquainted with, and practical experience proves that it is saving from ten to fifteen per cent. over Sperm or any other Oil, for lubricating or burning, and IT WILL NOT GUM. WEBSTER'S OIL STORE.

Corner of Washington and Quay Sts.

GEO. C. WEBSTER,

MANUFACTURER AND DEALER IN

MACHINERY AND BURNING OILS.

WEBSTER'S FOSSIL OIL.—A new compound, unsurpassed by anything known as a lubricator; absolutely free from all gumming property, and capable of resisting more cold than any other Oil in use, remaining limpid and flowing when Winter, Sperm, and Whale Oils are congealed and solid.

WEBSTER'S MACHINERY AND BURNING OIL.—An admirable and reliable preparation, of great durability, will not oxidize and form gum; decidedly superior to Sperm for Machinery, and not inferior for burning.

MACHINERY OIL of lower grades and prices; well adapted to coarser purposes, and to where it is liable to wasteful use.

WEBSTER'S IMPROVED AND REFINED BURNING OIL.—Fully equal to purest Sperm, both in volume of flame, and in illuminating power, and costing one-third less.

LARD OIL, for ordinary uses, equal to any made.

LARD OIL, filtered and bleached, for druggists and perfumers' use, transparent, colorless, and inodorous as water.

TESTIMONIALS OF THE PRESS.

Western Literary Messenger.—It is made up of original and selected articles, equally adapted to entertainment and instruction, and relying for its circulation on substantial merits rather than ostentatious pretensions. Mr. Clement's editorial care is always a safe pledge against everything of doubtful character and tendency, and his good taste a satisfactory assurance of positive merits.—*New York Recorder.*

It always contains a goodly array of literary, scientific, and miscellaneous articles, and is just the work every person should have. We would particularly recommend it as a family Magazine, always supplying a fund of useful, instructive and amusing reading.—*Planet, Chatham, C. W.*

Many eminent names in our literary galaxy of national talent are associated with this monthly. The editor is a scholar, and the impress of his really fine intellect is stamped upon his serial.—*Providence, R. I., Mirror.*

Western Literary Messenger.—We have ever held the Messenger in high estimation, regarding it superior to any literary magazine of its price. It is published by Thomas & Lathrops, Buffalo, and edited by J. Clement, Esq., who finds time not only to edit the Messenger, but also to do many a handsome *chore* for the *dailies*, to write poetry for the Magazines, correspond with various hebdomidals, and to canvass, for some legitimate object, at least once a year, nearly all the explored territory of the North-West.—*Mich. Christian Herald.*

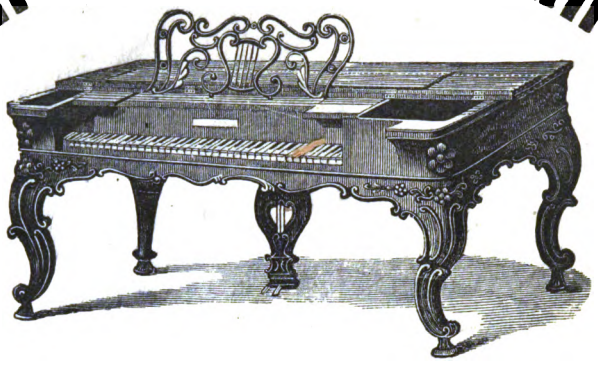
Hall's Celestial Pianos.



BENNETT & Co., Manufacturers

NO. 300 BROADWAY, NEW YORK,

WOULD call the attention of the trade to this great mechanical improvement, which is now complete in every respect, embracing three patents, and combining the precise effects of the Harp, with those of the *Principal and Diapason* of the Organ, at the same time retaining at pleasure the power and sweetness of the common Piano Forte; the various changes being produced by simply placing the foot on different pedals.

These Instruments, with all their advantages and superiority over the common Piano Forte, are sold at the lowest prices of ordinary Instruments.

If the united testimony of musical critics—professors and amateurs—is to be regarded, the

CELESTIAL PIANO

Must, in a very short time, supersede those of the ordinary kind. We could, did room permit, present the testimonials of the best artists in this city; among whom are a Timm, Sharfenberg, Hoffman, Watson, King, and a host of others, to the superiority of these Instruments over any thing hitherto offered to the public.

Having largely increased our facilities, we are prepared to fill orders at the shortest notice, and on the most reasonable terms. For durability and completeness of workmanship, every Instrument is fully warranted.

Pianos of the Ordinary Kind kept Constantly on Hand,

of superior tone and finish. Also,

MELODEONS,

of several of the best makers.
